

April 23, 2009

On April 3, 2009, a posting was made regarding an error discovered in the sharing of TSR coordination data. All issues, save one, have been resolved and former LES, NPPD, and OPPD TSRs that now reside on the SWPP OASIS are being included in coordination efforts.

The LES, NPPD, and OPPD TSRs that still reside on MAPP OASIS have been excluded from AFC calculations.

An updated posting will be made once the final issue is resolved.
